

To: Families with Infants and Toddlers in TEIS
Subject: Family Survey

The Tennessee Department of Education is asking for feedback from families whose children have received services from **Tennessee's Early Intervention System (TEIS)**. Your response will be helpful for program improvement.

If you have more than one child who is or has received services through TEIS in the past year, complete only one survey. Survey information is reported in such a way that **NO** individual family or child can be identified.

Feedback will be requested after every 6-month and annual Individualized Family Service Plan (IFSP) review. Your response is appreciated as soon as possible after your meeting.

The survey, which takes about 10 minutes, can be completed by either:

1. Paper form and returned in the postage paid self-addressed envelope; or
2. Online at www.TNEIonline.org
 - After you go to the website link, enter the **Survey ID#** located on the top right corner of the survey you received from your TEIS Service Coordinator.

Thank you in advance for providing this valuable information! If you have questions when completing this survey, please contact Sandy Counterline at (423) 439-7557 or counterline@etsu.edu.
